Queen's Road Capital Investment Ltd.
Management's Discussion and Analysis

Year ended August 31, 2026

Effective Date of this Report: November 13, 2026

This Management's Discussion and Analysis ("**MD&A**") is intended to help the reader understand the significant factors that have affected the performance of Queen's Road Capital Investment Ltd. and its subsidiary (collectively, "**QRC**", "**we**", "**us**", "**our**" or the "**Company**") and such factors that may affect its future performance. This MD&A should be read in conjunction with the Company's audited consolidated financial statements for the year ended August 31, 2026, and the related notes attached thereto, which have been prepared in accordance with IFRS Accounting Standards. The consolidated financial statements are available under QRC's profile on SEDAR+ at www.sedarplus.ca. All amounts in this MD&A are expressed in thousands of United States dollars, unless otherwise stated.

On January 10, 2025, the Company's Board of Directors approved the consolidation of the Company's issued and outstanding common shares at a consolidation ratio of ten (10) pre-consolidation common shares for every post-consolidation common share (the "Share Consolidation"). Outstanding stock options were similarly adjusted by the Share Consolidation ratio. The Share Consolidation resulted in 490,401,845 pre-consolidation common shares on January 10, 2025, which were consolidated into 49,040,187 post-consolidation common shares on January 15, 2025. The Share Consolidation was implemented with effect from January 15, 2025. In accordance with IFRS Accounting Standards the change has been applied retrospectively; as a result, disclosures of common shares, per common share data, and data related to stock options in this MD&A reflect this Share Consolidation for all periods presented, unless otherwise specified.

The MD&A includes the non-IFRS Accounting Standards management measure of estimated market value of investments, which differs from the standardized measurement prescribed under IFRS Accounting Standards and used for the purposes of the financial statements. Management's measurement may not be comparable to similar measures presented by other entities. This non-*Generally Accepted Accounting Practice* ("**GAAP**") measure should not be considered to be more meaningful than GAAP measures, which are determined in accordance with IFRS Accounting Standards. The reconciliation of management's estimated market value of investments to the fair value of investments, pursuant to IFRS 13, *Fair Value Measurement*, in the consolidated financial statements, is set out under ***"Investments at Estimated Market Value***" below.

Cautionary Statement on Forward-Looking Information

Except for statements of historical fact, this MD&A contains certain "**forward looking information**" and "**forward looking statements**" within the meaning of applicable securities laws, which reflect Management's current expectations, assumptions, and beliefs of the Company as of the date of such information or statements. Generally, forward looking statements and information can be identified by the use of forward-looking terminology such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", "believes" or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved" or the negative connotation thereof.

All such forward-looking statements are based on certain assumptions and analyses made by Management in light of their experience and perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate in the circumstances. These statements are, however, subject to known and unknown risks and uncertainties and other factors.

As a result, actual results, performance, or achievements could differ materially from those expressed in, or implied by, these forward-looking statements and, accordingly, no assurance can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what benefits will be derived therefrom.

These risks, uncertainties, and other factors include, among others, but are not limited to, statements with respect to the Company's future growth, results of operations, performance and business prospects, opportunities, the Company's investment strategy, investment process, and competitive advantage, growth expectation and opportunities, the availability of future acquisition opportunities and use of the proceeds from financing.

Although the Company has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that statements containing forward looking information will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on statements containing forward looking information. All the forward-looking information and statements contained in this document are expressly qualified, in their entirety, by this cautionary statement. The forward-looking information and statements are made as of the date of this document, and the Company assumes no obligation to update or revise them except as required pursuant to applicable securities laws.

Key Accomplishments During the Year Ended August 31, 2026 and to the date of this report (continued)

C$34 Million Private Placement

On April 30, 2026, the Company completed a non-brokered private placement of 2,180,646 shares at a price of C$15.50 per share for gross proceeds of C$34 million.

Investments

The Company has adopted an investment policy (the "**Investment Policy**") to govern the Company's investment activities which provides, among other things, the investment objectives and strategy based on the fundamental principles set out below. A copy of the Investment Policy is posted on the Company's website and filed on SEDAR+.

Investment Objectives

The Company invests primarily in public and privately held companies, primarily in the natural resource sector, with the objective of increasing shareholder return while seeking to preserve capital and limit downside risk by focusing on opportunities with attractive risk to reward profiles. The Company seeks to identify investments by utilizing the experience and expertise of its Management and Board. The Company seeks out superior investments that may include the acquisition of shares, equity, warrants, debt, convertible securities, royalty arrangements or streaming arrangements for public or private corporations with a focus on convertible debt securities.

Investment Strategy

In light of the numerous investment opportunities across the entire natural resources sector, the Company aims to adopt a flexible approach to investment targets without placing unnecessary limits on potential returns on its investment.

This approach is demonstrated in the Company's investment strategy set out below.

- The Company invests in the securities of both public and private natural resource companies and may take part in private or public offerings for predetermined equity positions, royalties, debt or convertible or preferred securities.
- Initial investments of debt, equity or a combination thereof may be made in public or private companies through a variety of financial instruments including, but not limited to, private placements, participation in initial public offerings, bridge loans, secured loans, unsecured loans, convertible debentures, warrants and options, royalties, net profit interests and other hybrid instruments.

Investments (continued)

Investment Strategy (continued)

- Investment arrangements may include a combination of securities including, but not limited to equity, debt, convertible debentures, warrants, preferred shares, bridge financing, collateral, royalty arrangements or other securities as deemed appropriate by the Company's Management and in compliance with the Investment Policy. In certain cases, the Company expects to enter into oversight arrangements as a condition of the investment. Oversight may range from Board appointments, advisory positions, or management consulting positions with the target companies.
- The Company may purchase or sell securities on public exchanges.
- The Company reserves the right to acquire all or part of other businesses or assets of a target company that management believes will enhance the value for shareholders. The Company will place no formal limit on the size of potential investments and may require future equity or debt financings to raise money for specific investments.
- The Company may make investments in extra-ordinary activities, or activities not in the normal course of business, which may include but not be limited to mergers, acquisitions, corporate restructurings, spin-offs, take-overs, bankruptcies or liquidations, public listings, leveraged buyouts or start-ups. The Company may elect to invest in such events, provide financing, or purchase securities in exchange for fees, interest or equity positions.
- The majority of investments are expected to have an expected life of investment of four to five years; however, the Company may also invest in opportunities that could provide longer-term capital appreciation.
- Depending on market conditions, the Company intends to fully invest its available capital, apart from maintaining capital to cover operating expenses.
- The Company will seek to maintain the ability to actively review and revisit all of its investments on an ongoing basis.
- The Company will evaluate the liquidity of investments and seek to realize value from same in a prudent and orderly fashion.
- All investments will be made in compliance with applicable laws in relevant jurisdictions, and in compliance with any associated exchange policy.

Management, the Investment Committee or the Board of the Company may authorize investments outside the guidelines described above if they feel the investment is for the benefit of the Company and its shareholders.

Investments (continued)

Investment Selection, Evaluation and Decision Making Process

The Company will pursue opportunities referred through investment banks, venture capital firms, legal and accounting firms and its professional network, and will gather insight into each opportunity, including its business model, financial prospects, management team, and the use of funds.

Management will research each investment target and will analyze and review opportunities with each target and provide a recommendation to the Board as a whole and to the Investment Committee. The Board has delegated the authority to make the final investment decision to the Investment Committee in respect of any opportunity recommended by the Board to the Investment Committee.

Research activities undertaken by management will include gathering complete details about the target company's business strategy, financial history, management team, growth objectives, products, markets, competitive forces, and capital requirements.

Management will oversee the due diligence activities. When deemed necessary, the Company may augment its review activities by outsourcing research requirements on specific investment opportunities to independent firms (accounting/financial, legal or industry analysts) that have professional relationships with the Company. Management will assess the financing needs of the target company in order to determine if the opportunity is compatible with the investment returns specific to the Company's investment criteria. The result of Management's review will conclude with a recommendation to the Board indicating if the Company should consider an investment in the target company. Management recommendations may range from:

- continuing to consider investment;
- recommending not to invest;
- considering investment with certain agreement covenants; and
- working with the target company in an advisory capacity in an effort to ready the target company for an investment at a later date.

Investments (continued)

Composition of Investment Portfolio

The Company invests the majority of its funds in the securities of resource companies. Investments made by the Company may take different forms, including equity, warrants, debt, convertible debentures, royalties, and metal streaming, although the Company is primarily focused on convertible debt securities.

As of August 31, 2026, the Company has invested a total of $213 million in convertible debentures issued by seven resource companies, as presented in the table below.

Resource Company US$000	Investment base at cost
ATHA Energy Corp. ("ATHA")	$ 25,000

[(1)] Several convertible debentures issued on various dates.

Investments (continued)

Management's Estimated Market Value of Investments

The Company has investments in listed and unlisted issuers and, as such, the market value of these investments moves with the share prices of the investee issuers. As most of the Company's investments are in convertible debt securities, the Company is less exposed to the risk of fluctuations in the market price of the equity securities than it would be if it invested in those equity securities directly.

(1) Market Value based on share prices and exchange rates on August 31, 2026.

(2) "Equity and other Investments" include (a) securities purchased for investment purposes; and (b) securities received as establishment fees and in settlement of interest receivable held for investment purposes that had no original investment cost to the Company; and (c) shares held as a result of conversion of certain convertible debentures held for investment purposes.

(3) Convertible debentures are stated at principal plus accrued interest with the option valued using the Black-Scholes methodology.

Investments (continued)

Reconciliation of Management's Estimated Market Value of Investments to Investments at Fair Value (an IFRS Accounting Standards measure)

As required by IFRS Accounting Standards, fair value of equity investments as shown in the consolidated audited financial statements is estimated based on the closing market price of the relevant equity investment. Pursuant to IFRS 13, *Fair Value Measurement*, fair value of the convertible debentures as shown in the consolidated audited financial statements is estimated using a valuation model of a system of two coupled Black Scholes equations and partial differential equations that are solved simultaneously using finite-difference methods. The fair value for a convertible debt instrument may be below the principal amount of such convertible debt instrument due to the methodology employed to derive such fair value. This does not have any implications in relation to the solvency of the issuer. The fair value is to comply with IFRS Accounting Standards only.

The Company's management estimated market value of these investments is detailed in the section above titled "***Management's Estimated Market Value of Investments***". Management believe that the market value of the investments provides a useful indication of the underlying value of the investment portfolio, particularly for the convertible debentures which are stated without the adjustment applied to volatility required to equate the initial estimated valuation to the estimated fair value of consideration exchanged in accordance with IFRS Accounting Standards.

The reconciliation of the IFRS Accounting Standards fair value of investments, the most directly comparable financial measure from the consolidated financial statements to Management's estimated market value of investments is set out below:

US$000	2026	2025
	$	$
Fair value under IFRS Accounting Standards at the end of the financial year	582,252	402,260
Convertible debentures - difference in models used and volatility assumptions due to the initial calibration of fair value with purchase price under IFRS Accounting Standards	43,025	48,498
Management's estimate of market value at the end of the financial year	625,277	450,758
New investments less disposals	(49,412)	15,789
Update of market value	(64,462)	17,090
Management's estimate of market value of investments at date stated in MD&A [(1)]	511,403	483,637

(1) Market Value based on share prices and exchange rates on November 11, 2026, and November 12, 2025.

Income Generation

The Company generates income from its investments in three main forms: (a) interest income from its convertible securities; (b) capital gains/losses from the disposal of its investments; and (c) fees earned as part of its investments.

(a) Interest income:

The Company receives interest income from its investments in convertible securities on a quarterly or semi-annual basis, depending on the specific terms of each investment. Some of the Company's investments settle a portion of the interest payment in the form of equity.

Annual interest income on the investments in convertible debentures held as at August 31, 2026 would be $19 million.

(b) Capital gains (losses):

The Company may generate income from capital gains (losses) through the sale of its investments. Capital gains (losses) could come in the form of (a) sale of any equity investments; (b) sale of any convertible security investments; or (c) sale of any equity shares received as settlement of establishment fees or interest income.

(c) Fees:

The Company may generate income from fees earned as part of its investments. The Company has earned establishment fees upon completing the convertible securities investments made to date. Establishment fees have been paid either in cash or in shares.

The Company's performance and results are not expected to be subject to seasonal fluctuations.

Income from investments for the three months ended August 31, 2026 was principally attributable to interest income and unrealized gain from convertible debentures, partially offset by unrealized loss from equities and other investments.

Loss from investments for the three months ended May 31, 2026, was principally attributable to an unrealized loss on equity and other investments due to decreases in the share prices of Gold Royalty and NexGen, and an unrealized loss on convertible debentures due to a decrease in the underlying share price of NexGen partially offset by interest income.

Income from investments for the three months ended February 28, 2026, was principally attributable to an unrealized gain from equity and other investments due to an increase in the share price of NexGen and an unrealized gain from convertible debentures due to an increase in the underlying share price of NexGen.

Income from investments for the three months ended November 30, 2025, was principally attributable to an unrealized gain from equity and other investments due to increases in the share prices of NexGen and Gold Royalty, and an unrealized gain from convertible debentures due to increases in the underlying share prices of Moxico and NexGen.

Income from investments for the three months ended August 31, 2025, was principally attributable to an unrealized gain from convertible debentures due to increases in the underlying share prices of Gold Royalty, NexGen, and Moxico, and an unrealized gain from equity and other investments due to an increase in the share price of NexGen.

Income from investments for the three months ended May 31, 2025, was principally attributable to an unrealized gain from convertible debentures due to increases in the underlying share prices of Gold Royalty, NexGen, and Contango, and an unrealized gain from equity and other investments due to increases in share prices of NexGen, Adriatic, and IsoEnergy.

Loss from investments for the three months ended February 28, 2025, was principally attributable to an unrealized loss from equity and other investments due to a decrease in the share price of NexGen and an unrealized loss from convertible debentures due to a decrease in the underlying share price of NexGen, partially offset by interest income.

Summary of Quarterly Results (continued)

Income from investments for the three months ended November 30, 2024, was principally attributable to an unrealized gain from equity and other investments due to increases in the share prices of NexGen and Adriatic, and an unrealized gain from convertible debentures due to increases in the underlying share prices of NexGen, Moxico, and IsoEnergy.

Net income for the three months ended August 31, 2026; February 28, 2026; November 30, 2025; August 31, 2025; May 31, 2025; and November 30, 2024, was attributable to income from investments, less operating expenses.

Net loss for the three months ended May 31, 2026, and February 28, 2025, was attributable to loss on investments and operating expenses.

Results of Operations

Income from Investments for the Fourth Quarter and Year ended August 31, 2026 and August 31, 2025

US$000	Three months ended		Year ended	
	August 31, 2026	August 31, 2025	August 31, 2026	August 31, 2025
	$	$	$	$
Interest and other income	5,357	5,141	21,168	19,067
Establishment fee income	-	300	1,050	1,200

	9,385	86,108	163,420	120,164

Income from investments was $9,385 for the three months ended August 31, 2026, compared with $86,108 for the three months ended August 31, 2025. The reduction in income from investments for the three months ended August 31, 2026, compared to the corresponding period, was principally attributable to a lower unrealized gain from investments in the current period than in the corresponding period, due to lower increases in the share prices of the investments in the current period compared to the corresponding period.

Income from investments was $163,420 for the year ended August 31, 2026, compared with $120,164 for the year ended August 31, 2025. The increase in income for the year ended August 31, 2026, compared to the corresponding period, was principally attributable to a higher unrealized gain from investments in the current period, due to larger increases in the share prices of the investments in the current period compared to the corresponding period.

Results of Operations (continued)

Income from Investments for the Fourth Quarter and Year ended August 31, 2026 and August 31, 2025 (continued)

Interest and other income for the three months and year ended August 31, 2026, were $5,357 and $21,168, compared with $5,141 and $19,067 for the three months and year ended August 31, 2025. The Company principally earned interest income on its convertible debenture securities. The increase for the three months and year ended August 31, 2026, compared with the corresponding periods, was principally due to additional investments in convertible debentures, generating higher interest income.

Establishment fee income for the three months and year ended August 31, 2026, was nil and $1,050, compared with $300 and $1,200 for the three months and year ended August 31, 2025, respectively. The income for the year ended August 31, 2026, was the 3% establishment fee on the additional $10,000 Moxico convertible debentures, combined with the 3% establishment fee on the $25,000 ATHA convertible debentures. The income for the three months and year ended August 31, 2025, was the 3% establishment fee on the principal amounts of $10,000 and $40,000 on the Moxico convertible debentures.

Realized gain from investments for the three months and year ended August 31, 2026, was $789 and $9,975, respectively, compared with a realized loss of $845 and a realized gain of $2,612 for the three months and year ended August 31, 2025, respectively. The income for the three months ended August 31, 2026, comprises the gain on the sale of equity and other investments. The loss for the three months ended August 31, 2025, comprises a loss on the conversion of other convertible debentures, partially offset by a gain on the sale of equity and other investments. The income for the year ended August 31, 2026, comprises the gain on the conversion of the Gold Royalty and other convertible debentures and the gain on the sale of equity and other investments. The income for the year ended August 31, 2025, comprises the gain on the sale of equity and other investments, partially offset by the loss on the partial conversion of the IsoEnergy (2020) convertible debentures.

The gain or loss on the conversion of convertible debentures reflects the number of shares received on conversion and the individual share price at the time of conversion compared with the carrying value of the investment at the beginning of the financial year. The gain on the sale of equity and other investments reflects the number of equity investments sold and the individual share prices at the time of sale, compared with the carrying value of the investments at the beginning of the financial year.

Results of Operations (continued)

Income from Investments for the Fourth Quarter and Year ended August 31, 2026 and August 31, 2025 (continued)

Unrealized gain from investments for the three months ended August 31, 2026, was $3,239, compared with an unrealized gain of $81,512 for the three months ended August 31, 2025. The share prices of some of the underlying issuers of the convertible debentures and equity and other investments increased by a lower amount between the start and end of the three months ended August 31, 2026, whereas share prices increased by a higher amount in the corresponding period, resulting in a lower unrealized gain in the current period compared with the unrealized gain in the corresponding period.

Unrealized gain from investments for the year ended August 31, 2026, was $131,227, compared to $97,285 for the year ended August 31, 2025. The unrealized gain from investments for the year ended August 31, 2026, and August 31, 2025, was principally attributable to an increase in the fair value of certain convertible debentures and certain equity and other investments.

The higher unrealized gain from investments for the year ended August 31, 2026, compared with the corresponding period, was principally attributable to greater increases in the fair value of certain convertible debentures and certain equity and other investments. The share prices of some of the underlying issuers of the convertible debentures and equity and other investments increased more between the start and end of the year ended August 31, 2026, than in the corresponding period, resulting in a higher unrealized gain.

The amount of gain or loss from investments in future quarters will depend on the share price, volatility of the stock, remaining life of the debentures and credit adjusted interest rate during those quarters.

The Company has long-term lease liabilities of $113 as at August 31, 2026 (August 31, 2025 - $299).

As at August 31, 2026, the Company believes there is sufficient working capital available to meet its current operational requirements. The Company may raise more capital for investment allocation or refinancing from time to time as required.

Future Accounting Policy Changes

A number of new standards, amendments to standards, and interpretations are not yet effective as of the date of this report; and were not applied in preparing the annual consolidated financial statements. The Company is assessing the impact of Presentation and disclosure in financial statements (IFRS 18). IFRS 18 requires all income and expenses to be grouped into five categories: operating, investing, financing, discontinued operations, and income tax, and introduces new required subtotals, such as operating profit, new requirements for Management Performance Measures (MPMs), and additional guidance on the grouping of items. The impact of these new standards, amendments to standards, and interpretations are not expected to have a material effect on the Company's consolidated financial statements.

Material Accounting Policies

The financial information presented in this MD&A has been prepared in accordance with IFRS Accounting Standards. The Company's management has made judgments and estimates that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income, and expense. Actual amounts incurred by the Company may differ from these values.

The Company's material accounting policies, applied judgments, and estimates are set out in the notes 2 and 3 of the audited annual consolidated financial statements for the year ended August 31, 2026.

Significant Judgments

The preparation of financial statements in accordance with IFRS Accounting Standards requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments in applying the accounting policies in the Company's annual consolidated financial statements include the valuation of investments.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements.
