1. Reporting entity and nature of operations:

Queen's Road Capital Investment Ltd. ("QRC" or the "Company") is a resource focused investment company, making investments in privately held and publicly traded resource companies. The Company acquires and holds securities for long-term capital appreciation, with a focus on convertible debt securities of issuers having resource projects in advanced development or production located in safe jurisdictions.

The Company was incorporated under the laws of the Province of British Columbia, Canada on January 25, 2011. On January 29, 2020, the Company redomiciled from British Columbia, Canada to the Cayman Islands and changed its name from Lithion Energy Corp. to Queen's Road Capital Investment Ltd. The Company's corporate office is located at Suite 2006, 2 Queen's Road Central, Hong Kong. The Company trades under the symbol "QRC" on the TSX Venture Exchange ("TSXV").

Since February 2020, the coronavirus ("COVID-19") has threatened a slowdown in the global economy, as well as, caused volatility in the global financial markets. While the full impact of COVID-19 on the global economy is uncertain, the spread of COVID-19 may have an adverse effect on the Company's investments. The extent to which COVID-19 may impact the Company's business will depend on future developments such as the geographic spread of the disease, the duration of the outbreak, travel restrictions and social distancing, business closures or business disruptions, and the effectiveness of actions taken in Canada, the U.S., Hong Kong S.A.R and other countries to contain and treat the disease. Although it is not possible to reliably estimate the length or severity of these developments and their financial impact, this could have a significant adverse impact on the Company's financial position and results of operations for future periods.

These condensed interim consolidated financial statements were authorized for issue by the Board of Directors of the Company on January 7, 2022.

2. Basis of presentation:

(a) Statement of compliance:

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting* ("IAS 34") as issued by the *International Financial Accounting Standards Board* ("IASB") and interpretations of the *International Financial Reporting Interpretations Committee* ("IFRIC"). Accordingly, certain information and footnote disclosure normally included in annual consolidated financial statements prepared in accordance with *International Financial Reporting Standards* ("IFRS"), as issued by the IASB, have been omitted or condensed.

(b) Basis of presentation:

These condensed interim consolidated financial statements have been prepared on a historical cost convention, except for financial instruments carried at fair value through profit or loss ("FVTPL"). In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Notes to Condensed Interim Consolidated Financial Statements (Tabular amounts expressed in United States dollars, unless otherwise indicated)

Three months ended November 30, 2021 (Unaudited)

2. Basis of presentation (continued):

(b) Basis of presentation (continued):

The condensed interim consolidated financial statements have been prepared using the same accounting policies and methods as those used in the audited financial statements for the year ended August 31, 2021. These condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended August 31, 2021.

(c) Significant accounting estimates and assumptions:

The preparation of these condensed interim consolidated financial statements in accordance with IFRS requires management to make estimates and assumptions that effect the reported amounts of assets, liabilities, and contingent liabilities at the date of the consolidated statements and the reported amounts of revenue and expenses during the reporting period. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable in the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include the fair value measurement for financial instruments and share-based compensation and the recoverability and measurement of deferred tax assets.

The estimates that are critical to the determination of the amounts reported are set out in note 2 of the Company's audited consolidated financial statements for the year ended August 31, 2021.

(d) Significant judgements:

The preparation of condensed interim consolidated financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments in applying the Company's condensed interim consolidated financial statements relate to the accounting of the Company's investments. The judgements that are critical to the determination of the amounts reported are set out in note 2 of the Company's audited consolidated financial statements for the year ended August 31, 2021.

3. New standards, amendments and interpretations not yet adopted of effective:

Certain new standards, interpretations, amendments, and improvements to existing standards were issued by the IASB. The Company anticipates that the application of these standards, amendments, and interpretations in future periods, as listed below, will have no material impact on the results and financial position of the Company, except for additional disclosures:

- Definition of Accounting Estimates (Amendments to IAS 8).
- Disclosure Initiative Accounting Policies (Amendments to IAS 1 and IFRS PS 2).

The realized gain from financial instruments at FVTPL represents the difference between the carrying amount of the financial instrument at the beginning of the reporting period, or the transaction price if it was purchased in the current reporting period, and the consideration received on disposal. The unrealized gain represents the difference between the carrying amount of a financial instrument at the beginning of the period, or the transaction price if it was purchased in the current reporting period, and its carrying amount at the end of the reporting period.

(a) Investment in NexGen Energy Ltd. ("NexGen") common shares and convertible debentures:

On May 27, 2020, the Company completed the purchase of 11,611,667 common shares of NexGen, a company related by way of two common directors, at \$1.29 per share for a purchase price of \$15,000,000. The fair value of the 11,611,667 NexGen shares at November 30, 2021 is \$54,279,504 (August 31, 2021 - \$54,574,828; NexGen 11,611,667 shares). The fair value is calculated using the closing market price of the shares on the relevant date.

On May 27, 2020, the Company completed the purchase of a 5-year term convertible debenture in NexGen (the "NexGen convertible debenture") at a cost of \$15,000,000. The NexGen convertible debenture is unsecured and ranks equally in right of payment with all present and future unsecured and unsubordinated indebtedness of NexGen. The NexGen convertible debenture bears interest at a rate of 7.5% per annum, payable semi-annually, of which only 5% is payable in cash and 2.5% is payable in common shares.

The Company is entitled, from time to time before the maturity date of May 27, 2025, to convert some or all of the principal amount of the NexGen convertible debenture into common shares at a price of CA\$2.34 per share (the "conversion price").

Three months ended November 30, 2021 (Unaudited)

5. Investments at fair value (continued):

(a) Investment in NexGen Energy Ltd. ("NexGen") common shares and convertible debentures (continued):

The fair value of the NexGen convertible debenture at November 30, 2021 is \$40,541,870 (August 31, 2021 - \$40,060,025). For the three-month ended November 30, 2021, the Company recorded \$281,250 (November 30, 2020 - \$278,193) in interest income. As at November 30, 2021, the Company had \$534,375 (August 31,2021 - \$253,125) in receivables related to accrued interest.

The valuation model used to estimate the fair value of the convertible debenture is a system of two coupled Black-Scholes Option Pricing equations and partial differential equations that are solved simultaneously using finite-difference methods, with the following assumptions:

	November 30,	August 31
	2021	2021

(b) Investment in IsoEnergy Ltd. ("IsoEnergy") convertible debentures:

On August 18, 2020, the Company completed the purchase of a 5-year term convertible debenture in IsoEnergy (the "IsoEnergy convertible debenture") at a cost of \$6,000,000. IsoEnergy is a company controlled by NexGen. The IsoEnergy convertible debenture is unsecured and ranks equally in right of payment with all present and future unsecured and unsubordinated indebtedness of IsoEnergy. The IsoEnergy convertible debenture bears interest at a rate of 8.5% per annum, payable semi-annually, of which 6% is payable in cash and 2.5% is payable in common shares. On the date on which IsoEnergy files an economically positive preliminary economic assessment compliant with the requirements of National Instrument 43-101 of the Canadian Securities Commission (the "Positive Preliminary Economic Assessment"), the interest rate of the convertible debenture will be reduced to 7.5% per annum, thereby reducing the cash and common shares obligation to 5% and 2.5%, respectively. As of November 30, 2021, IsoEnergy has not filed the Positive Preliminary Economic Assessment.

The valuation model used to estimate the fair value of the convertible debenture is a system of two coupled Black-Scholes Option Pricing equations and partial differential equations that are solved simultaneously using finite-difference methods, with the following assumptions:

	November 30, 2021	August 31, 2021
Expected price volatility Expected life Risk free interest rate Coupon interest rate Expected dividend yield Credit spread Underlying share price of the investee (CA)	64.0% 4.51 years 1.319% 8.0% -% 23.50% \$11.00	70.0% 4.76 years 0.803% 8.0% -% 23.16% \$7.01

(e) Investment in Osisko Green Acquisition Ltd. ("Osisko") common shares:

On September 8, 2021, the Company completed the purchase of 2,000,000 Class A Restricted Voting Units for CA\$10.00 per unit in Osisko for a purchase price of \$15,778,000. Each Class A Restricted Voting Unit comprised of one Class A Restricted Voting Share and one-half of one Warrant. The Restricted Voting Units split into shares and warrants on October 18, 2021. The fair value of the 2,000,000 Class A Restricted Voting Shares at November 30, 2021 is \$14,930,470 (August 31, 2021 - nil) The fair value of the 1,000,000 Warrants at November 30, 2021 is \$469,020 (August 31, 2021 - nil). The fair value is calculated using the closing market price of the shares and warrants on the reporting date.

The Company also completed the purchase of 665,000 Class B Shares and 931,988 Funding Warrants for purchase price of \$737,318 which, together with the Warrants above, are included under other equity investments. Class B Shares and Funding Warrants have equivalent rights to Class A shares and Warrants; however, are unlisted and can be converted into an equivalent equity instrument on completion of a qualifying transaction by Osisko, which is expected to be within 18 months.

5. Investments at fair value (continued):

(f) Other equity investments held for investment purposes:

The Company holds common shares and warrants in listed entities. The shares and warrants are held as a result of (a) establishment fees settled in common shares related to convertible debenture investments; (b) interest income on convertible debenture investments settled in common shares; and/or (c) purchases of common shares and warrants for investment purpose. The fair value for shares and warrants traded on a stock market is calculated using the closing market price of the shares or warrants on the relevant date. The fair value for equity investments which are not traded on a stock market is calculated using the closing market price of an equivalent traded instrument with an appropriate discount applied to reflect the restrictions or different nature of the investment.

The fair value of other equity investments at November 30, 2021 is \$6,966,751 (August 31, 2021 - \$1,396,155).

6. Accounts payable and accrued liabilities:

(d) Dividend Reinvestment Plan ("DRIP"):

On October 14, 2021 the Company approved a dividend reinvestment plan ("DRIP") for shareholders to elect to receive shares in lieu of cash as a dividend. The number of shares to be received by DRIP participants will be based on a 10% discount to the 5-day volume weighted average share price of the Company prior to the dividend payment date. The DRIP allows for the issuance of up to 27,725,265 shares.

4,393,303 common shares of the Company were issued on November 19, 2021 as fully paid shares for the settlement of dividends of CA\$0.015 per share declared on October 15, 2021 to shareholders on record on November 15, 2021 based on a share price of CA\$0.72.

Three months ended November 30, 2021 (Unaudited)

9. Share capital (continued):

(e) Share Repurchase Program ("SRP"):

On November 19, 2021 the Company approved a share repurchase program valid for a period of twelve months. Purchases will be conducted by a third-party broker until November 21, 2022. Any shares purchased under the SRP will be held in treasury for use under subsequent DRIP related share issuances. The SPR allows for the repurchase of up to 14,262,633 shares.

There have been no purchases under the SRP in the three months ended November 30, 2021 (November 30, 2020 - nil).

(f) Dividend:

On October 15, 2021 the Company declared a dividend on CA\$0.015 per share to all shareholders of record on November 15, 2021. The dividend of \$3,385,379 was paid on November 19, 2021, with \$882,672 paid in cash and \$2,502,707 settled by the issue of 4,393,303 shares.

10. Basic and diluted net income per share:

The calculation of basic net income per share for the three months ended November 30, 2021 is calculated using the weighted average number of common shares outstanding of 280,163,762 (November 30, 2021 - 277,252,651).

Diluted net income per share, for the three months ended November 30, 2021, was calculated using the weighted average number of common shares outstanding, and adjusted for the dilutive effect of weighted average number of options outstanding during the three months ended November 30, 2021. Diluted loss per share for the three months ended November 30, 2020 did not include the effect of outstanding options as the effect would be anti-dilutive.

11. Financial instruments and risk management:

The Company provides disclosures that enable users to evaluate (a) the significance of financial instruments for the entity's financial position and performance; and (b) the nature and extent of risks arising from financial instruments to which the entity is exposed during the period and at the reporting date, and how the entity manages these risks.

Three months ended November 30, 2021 (Unaudited)

11. Financial instruments and risk management (continued):

The following table summarizes the carrying value of financial assets and liabilities of the Company as at November 30, 2021 and August 31, 2021:

	November 30, 2021	August 31, 2021
Fair value through profit and loss: Investments at fair value	\$ 175,974,521	\$ 146,395,500
Amortized cost: Cash Prepaid and deposits Receivables Accounts payable and accrued liabilities Borrowings	3,461,962 45,733 1,081,554 327,572 16,237,427	2,158,142 49,529 621,458 172,712

As at November 30, 2021 and August 31, 2021, financial instruments that are not measured at fair value on the balance sheet are represented by cash, prepaid and deposits, receivables, and accounts payable and accrued liabilities and borrowings. The fair value of these financial instruments approximates the carrying value due to their short-term nature and the fair values are estimated using Level 2 inputs.

Financial instruments that are recognized on the balance sheet at fair value can be classified in a hierarchy that is based on the relative reliability of the inputs used to estimate the fair value:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 inputs other than quoted prices included in Level 1 that are observable for the
 asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from
 prices); and
- Level 3 inputs for the asset or liability that are not based on observable market data (unobservable inputs).

11. Financial instruments and risk management (continued):

The Company's financial assets measured at FVTPL are as follows:

November 30, 2021	Level 1	Level 2	Level 3
Investments at fair value	\$ 71,045,297	\$104,929,223	\$
August 31, 2021	Level 1	Level 2	Level 3
Investments at fair value	\$ 55,970,983	\$ 90,424,517	\$ _

There were no asset transfers between levels for the three months ended November 30, 2021 or year ended August 31, 2021.

Financial risks:

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk;
- · Liquidity risk;
- Interest and foreign exchange risk; and
- Market price risk.

(a) Credit risk:

Credit risk is the risk of potential loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets, including cash and investments. The Company has limited exposure to credit risk related to cash, as it only deposits its cash with high credit quality financial institutions, which are available on demand. The Company's equity investments are settled and paid for upon delivery using an approved broker. The risk of default is considered minimal, as delivery of securities sold is made once the broker has received payment and payment on a purchase is received by the broker. The trade will fail if either party fails to meet its obligations. The Company's credit risk related to convertible debentures is associated with the risk that these third parties will not perform their underlying obligations. The Company mitigates its credit risk by only investing and providing loans where they have a detailed knowledge of the investee's operations and business strategy. The Company has four convertible debentures at November 30, 2021 that were made up of 41% NexGen, 30% IsoEnergy; 23% Adriatic; and 6% Los Andes. (August 31, 2021 - 45% NexGen, 23% IsoEnergy, 27% Adriatic and 5% Los Andes).

Notes to Condensed Interim Consolidated Financial Statements (Tabular amounts expressed in United States dollars, unless otherwise indicated)

Three months ended November 30, 2021 (Unaudited)

11. Financial instruments and risk management (continued):

(b) Liquidity risk:

Liquidity risk is the risk that the Company will not be able to meet its financial obligations when they become due. The Company has ensured, as far as reasonably possible, it will have sufficient working capital in order to meet short-term business requirements, after taking into account cash flows from operations and the Company's holdings of cash. Historically, the Company's primary source of financing has been the issuance of equity securities for cash, through private placements. In the three months ended November 30, 2021 the Company raised funds through a secured bank loan. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity or bank financing. As of November 30, 2021, the Company had no significant contractual obligations other than those included in accounts payable and accrued liabilities and borrowings (August 31, 2021 - nil).

(c) Interest and foreign exchange risk:

The Company is subject to normal risks including fluctuations in interest rates and foreign exchange rates. While the Company manages its operations in order to minimize exposure to these risks, it has not entered into any derivatives or contracts to hedge or otherwise mitigate this exposure.

At November 30, 2021, the Company is exposed to limited interest rate risk as it earns very little interest on its cash balance due to current near zero interest rates in Canada and the United States. The Company is exposed to interest rate risk on its borrowings arising from movements in CDOR.

The Company has assets which are denominated in in US and Canadian ("CA") dollars and liabilities which are denominated in US, CA dollars, Hong Kong (HK) dollars and Australian ("AU") dollars. The Company's exposure to exchange rate fluctuations arises mainly on foreign currency fluctuations against the U.S. dollar functional currency.

The U.S. dollar equivalent of the amounts denominated in foreign currencies are as follows:

	November 30, 2021	August 31, 2021
Cash Prepayments and deposits Receivables Investments Accounts payable and accrued liabilities Borrowings	\$ 3,443,289 20,459 51,346 76,176,725 (301,495) (16,415,700)	\$ 1,746,721 - - 55,970,983 (128,793) -
	\$ 62,974,624	\$ 57,588,911

Notes to Condensed Interim Consolidated Financial Statements (Tabular amounts expressed in United States dollars, unless otherwise indicated)

Three months ended November 30, 2021 (Unaudited)

11. Financial instruments and risk management (continued):

(c) Interest and foreign exchange risk (continued):

The Company is exposed to foreign currency risk on fluctuations related to cash, prepayments and deposits, receivables, investments, and accounts payable and accrued liabilities and borrowings that are denominated in CA, HK, and AU dollars. As at November 30, 2021, net assets totalling \$62,974,624 (August 31, 2021 - \$57,588,911) were held in CA, HK and AU dollars. Based on the above net exposure as at November 30, 2021 and assuming all other variables remain constant, a 2% depreciation or appreciation of the CA, HK, or AU dollar against the U.S. dollar would result in an increase or decrease of approximately \$1.3 million (August 31, 2021 - \$1.2million) in the Company's net income and comprehensive income.

(d) Market price risk:

Market price risk is the risk that the fair value of an investment measured at FVTPL will fluctuate because of changes in market prices (other than those arising from foreign currency risk or interest rate risk). The Company's investments at fair value of public entities are subject to price risk. A 5% increase in the value of the individual equity market prices in public entities, or individual equity prices in public entities which are used as equivalent equity instruments for the valuation of non-traded investments, would result in an increase in the value of investments and unrealized gain for the three months ended November 30, 2021 of approximately \$7.4 million (November 30, 2020 - \$2.6 million), while a 5% decrease would result in a decrease of approximately \$8.1 million (November 30, 2020 - \$2.6 million).

12. Capital management:

The Company considers the items in shareholders' equity as capital. The Company's objectives when managing capital are to maintain financial strength and to protect its ability to meet its future liabilities, to continue as a going concern, to maintain creditworthiness and to maximize returns for shareholders over the long-term.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company's objectives when managing capital are:

- (a) to maintain the Company's ability to make new investments by allowing it to respond to economic changes and/or the marketplace;
- (b) to maintain growth of shareholders' equity; and
- (c) to continue taking a conservative approach towards financial leverage and management of financial risks.

Notes to Condensed Interim Consolidated Financial Statements (Tabular amounts expressed in United States dollars, unless otherwise indicated)

Three months ended November 30, 2021 (Unaudited)

12. Capital management (continued):

The Company reviews its capital structure on an on-going basis and makes adjustments in light of changes in economic conditions and the risk characteristics of its underlying investments. The Company has adjusted or maintained its level of capital by raising additional capital through equity financings. The Company is not subject to externally imposed capital requirements.

13. Supplemental disclosure with respect to cash flows:

During the three months ended November 30, 2021, the significant non-cash transactions include \$37,495 in investments received for the settlement of interest receivable (note 5), reallocation of \$2,804,616 from share-base reserve to share capital for options exercised (note 9) and reallocation of \$2,502,707 from retained earnings to share capital for shares issued under the DRIP (note 9).

During the three months ended November 30, 2020, there were no significant non-cash transactions.

14. Segmented information:

An operating segment is defined as a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are reviewed regularly by the Company's executive management, and for which discrete financial information is available. The Company has determined that it currently has one operating segment, being the selection, acquisition, and management of investments. The Company's corporate head office incurs nominal costs that are incidental to the activities of the Company and therefore does not meet the definition of an operating segment.
